From the table of the Principal.....

Teacher Education plays a vital role in shaping the future of a nation, as educators are responsible for imparting knowledge, skills, and values to the next generation. In India, one of the key institution involved in teacher education is the District Institute of Education and Training (DIET). Established under the guidance of the National Council of Teacher Education (NCTE), DIETs serve as prominent centers for teacher training and development at the district level.

DIETs hold significant importance in the teacher education system of India due to their decentralized structure and focus on grassroots-level training. These institutions aim to bridge the gap between theoretical knowledge and practical skills by providing aspiring teachers with the necessary pedagogical tools, methodologies, and subject expertise. By catering to the specific needs of each district, DIETs ensure that teachers are well-equipped to address their local communities' unique challenges and demands.

DIETs also play a significant role in providing in-service training to working teachers. These programs aim to update and upgrade the skills and knowledge of teachers in response to emerging educational trends, policies, and technologies. In-service training programs conducted by DIETs cover various aspects, including curriculum development, pedagogical innovations, ICT integration, assessment strategies, and classroom management techniques. These programs are designed to enhance the teaching capabilities of experienced teachers and promote their professional growth.

Curriculum Development and Resource Support: DIETs actively participate in curriculum development processes, ensuring that the teacher education programs align with the changing educational goals and aspirations. They collaborate with State Councils of Educational Research and Training (SCERTs) and other educational bodies to design and update pre-service and in-service teacher training curriculum frameworks. DIETs also act as resource centers by providing teaching-learning materials, reference books, and access to digital resources to facilitate effective teaching practices.

Principal

SEPTEMBER 2024

DR M. SELVAM, PRINCIPAL

➤ Visited the following schools.

Date	Schools	Purpose
02.9.2024	PUMS, Jenkamanaickenpatty, Pillur, Bommakpalayam, Sultanpettai, PUPS, Kujampalayam&Palakkarai.	EE visit
